

THE FUTURE OF CANCER CARE

Dear Doctor,

We are delighted to share the exciting news that Icon Oncology's newly established, comprehensive oncology unit at Johannesburg Surgical Hospital is now operational.

Our primary aim for this unit is to enhance the patient journey by providing seamless care across all stages of treatment.

Understanding that cancer care often involves collaboration among various medical specialties such as surgeons, oncologists, radiologists, pathologists, and others, Icon Oncology, alongside our team of resident oncologists, is committed to establish multidisciplinary teams. These teams will review each case to ensure a coordinated and clear course of treatment.

Full-service unit:

Our unit boasts state-of-the-art facilities encompassing radiation therapy and full-service chemotherapy, thereby ensuring an integrated and holistic patient experience. The unit is equipped with an **Elekta Harmony Pro linear accelerator** (linac), offering patients access to cutting-edge radiation therapy technology under one roof.

Our resident oncologists are:

Dr Daleen Geldenhuys,
Medical Oncologist

Dr Shivona Moodley,
Radiation Oncologist

Dr Nirasha Chiranjan
Radiation Oncologist

Dr Sudeshen Naidoo,
Radiation Oncologist

Dr Ingo de Muelenaere
Radiation Oncologist

We invite you to visit our unit and meet our team, who will gladly provide you with a tour of our facilities.

Please contact us on arrange your visit.

Kind regards,

Lizl Page
